

SUMMARY OF APPLICATION RECEIVED FROM MAB CORPORATION

‘ACE RESERVE’ NAMING PROPOSAL

- Ace Reserve was the name given by the developer during the design and delivery phase and is well known and recognisable by the community.
- It's creation specifically responded to the Merrifield Plan Your Park – Community Engagement which noted a strong desire for equipment to promote exercise.'
- A similar approach was adopted to park naming for other parks located in Merrifield where vision/theme informed the naming of the park. This can be seen with Hume Council endorsement of names for other reserves in the estate such as Foundation Park and Pinnacle Park. We believe that continuing to recognise this approach allows for a better fit with the existing park names, particularly given we are part way through the development of the estate.
- The applicant advised that they been in contact with the Landscape Architects who originally planned and designed the park, and that their feedback noted that the term 'Ace' is often associated with top performance, particularly in sports like tennis and symbolises success and achievement.
- Naming the park “Ace Reserve” perfectly captures the spirit of the park and aligns with its purpose of being a vibrant space providing a range of fitness and active play experience that promotes healthy living. The park contains:
 - a tennis court (including a hit-up wall)
 - basketball hoops
 - fitness equipment, and
 - a commando course with rope net, hurdles and tyre steppers.
- The photographs copied below were also provided by the applicant in support of their application:
